

TactIQ

Operations Execution and Workforce Solutions for Federal Programs

COMPANY OVERVIEW

Federal agencies are operating with reduced staff, increasing oversight, and compressed timelines while programs still need to run. TactIQ maintains continuity and improves performance through integrated workforce, logistics, and program execution supported by embedded automation and performance tracking.

CORE COMPETENCIES

Operational Workforce Execution

Deploys personnel aligned to program requirements to sustain operations and meet required outputs.

Logistics and Warehouse Operations

Maintains inventory control, material flow, and site coordination to ensure operational continuity and throughput.

Program and Event Execution

Delivers coordinated program activities, meetings, and events across stakeholders and timelines without disruption.

Administrative and Program Support

Provides reporting, scheduling, and coordination to maintain structure, compliance, and oversight readiness.

Embedded Systems and Process Optimization

Applies automated workforce matching, real-time performance tracking, and workflow optimization to improve execution and reduce manual effort.

DIFFERENTIATORS

- Maintains program continuity under staffing and operational constraints
- Integrates workforce execution with automation and performance tracking
- Deploys rapidly to stabilize and sustain active programs
- Experience across logistics, workforce, and program-driven environments
- Applies systems within operations to improve outcomes, not as standalone tools

SBA 8 (a) Certified

HUBZone Certified

PAST PERFORMANCE

NASA Jet Propulsion Laboratory (JPL)

Ensured uninterrupted warehouse and logistics operations supporting mission-critical infrastructure.

Department of Labor - Job Corps

Improved workforce placement alignment and reduced time-to-placement through data-driven matching systems.

Food and Drug Administration (FDA)

Supported compliance efforts to reduce underage tobacco sales through monitoring, data collection, and identification of illegal online and in-store sales activity.

U.S. Department of Agriculture (USDA)

Delivered workforce transition training programs, improving personnel readiness and successful entry into operational roles.

Centers for Disease Control and Prevention (CDC)

Improved outreach effectiveness and engagement across public health initiatives.

Department of Defense - Mentor-Protege Program

Delivered an AI-driven matchmaking and scheduling platform to coordinate program participation.

NABA Inc.

Executed national event operations, ensuring coordinated delivery across multi-day programs.

CERTIFICATIONS
