TactIQ
Business Intelligence *By Design*

We Are Tact**IQ**

Pronounced "Tactic"

Driving Operational Excellence through Advanced Technology and Strategic Expertise

At TACTIQ, we seamlessly blend cutting-edge technology with strategic insights to streamline operations, eliminate inefficiencies, and empower businesses to become more agile and scalable. Our solutions allow organizations to focus on their core mission while technology drives growth, productivity, and innovation.

Core **Capabilities**

Strategic Workforce & Staffing Solutions: TACTIQ leverages advanced AI-driven platforms for precise talent sourcing and staff augmentation, aligning workforce strategies with client goals to boost productivity and efficiency. Our approach ensures the right talent is placed quickly and effectively.

Facilities & Logistics Management: We provide comprehensive support in inventory management, logistics coordination, and process optimization. Our solutions enhance supply chain efficiency and optimize asset utilization, giving organizations full control over their resources.

Administrative & Event Management Support: TACTIQ offers skilled administrative personnel and full-service event management, covering everything from document management and scheduling to logistics and on-site execution. We ensure operational efficiency and flawless delivery for both small and large-scale events.

Strategic Communications: Our strategic communication services elevate client messaging and visibility. We offer message development, media outreach, and stakeholder engagement, driving public engagement and strengthening brand presence.

IT Services **Capabilities**

Cloud Migration & Modernization: We manage cloud migration and system modernization projects, ensuring scalable and secure infrastructure through expert staffing and technologies such as JavaScript, Python, and MongoDB.

Infrastructure & DevOps Automation: TACTIQ implements CI/CD pipelines and infrastructure automation using tools like Terraform and Ansible, enhancing system agility and efficiency.

Application Development (Web & Mobile): Our team develops secure, scalable web and mobile applications tailored to client needs, utilizing technologies like Node.js and React to optimize performance.

AI & Data Engineering Solutions: We offer AI-driven process automation and data analytics services. Our consultants implement AI solutions using SageMaker and TensorFlow, while building data pipelines with Spark and Databricks for actionable insights.

What Sets **Us Apart**

Proprietary AI Platform: Our platform enhances talent matching, reducing time-to-hire and improving workforce outcomes.

Tailored Consulting: We provide customized strategies aligned with client goals for sustainable success.

Integrated Services: Our combined offerings across workforce, IT, and logistics streamline operations and drive efficiency.

Past **Performance**

Workforce Technology Platform
Client: Job Corps, Department of Labor (DOL) - Subcontract with Bizzell
Developed a machine learning platform to enhance job placement for Job Corps students, improving efficiency and reducing time-to-hire through intelligent matching and analytics.

Strategic Communications
Client: Centers for Disease Control and Prevention (CDC) - Subcontract with Bizzell
Provided targeted messaging and media outreach services to boost public engagement and increase campaign effectiveness for public health initiatives.

Logistics & Warehouse Management Support
Client: NASA JPL (Subcontract with Bizzell)
Delivered comprehensive logistics and warehouse management services, optimizing inventory control and operational efficiency to support NASA's mission-critical infrastructure.

Event Management & Marketing
Client: National Association of Black Accountants (NABA)
Managed a large-scale international event, coordinating logistics, marketing, speaker engagements, and ensuring seamless execution and high satisfaction.

IT Modernization Projects
Client: National Association of Black Accountants (NABA), National College Resources Foundation (NCRF), CBCI Woman in Sales, and Black Business of Memphis
Developed SaaS platforms and job matching processes using AWS services to optimize recruitment and enhance platform performance for diverse organizations.

Certifications & **Contract Vehicles**

SBA 8(a) Certified, **HUBZone** Certified
